

Adam Koza  
Program 1 Report

Project 1 went very well for my group. Every team member contributed to help out with finishing the different modules. Jackson implemented both Select methods and the Union method. Ben implemented Minus and Typecheck, and helped out on Union, Projection, and Join. Sean implemented the Join method. I implemented the Projection method with the help of Ben. We met once as a group and did the rest on our own.

Name	Grade
Adam Koza	
Ben Pipkin	+5
Sean Sandlin	+5
Jackson Wearn	+5

Meetings:  
Friday Jan 16th from 2:30pm - 4:00pm (everybody showed up)  
Wednesday Jan 21st from 5:00pm - 9:00pm (Ben and Adam)
